Components

Components are the basic building blocks for creating beautiful and intuitive UI & UX.

Nectar provides over 50 reusable components which you can mix and match to create beautiful interfaces providing best experience to your users.

Each component provides native look and feel by following Google's Material Design Guidelines and Apple's Human Interface Guidelines on Android and iOS respectively.

Besides the components provided by Framework7, Nectar also uses few third-party components to extend the functionalities.

Component	URL
Framework7 Components	https://v3.framework7.io
Framework7 Icons	https://framework7.io/icons
Form Validator	https://jqueryvalidation.org
Font Awesome Icons	https://fontawesome.com
Hamburger	https://jonsuh.com/hamburgers
Keypad	https://github.com/framework7io/framework7-plugin-keypad
Material Icons	https://material.io/icons
Rating	https://rateyo.fundoocode.ninja
Timepicker	https://felicegattuso.com/projects/timedropper
